Novice \$300  
Amateur \$300  
Expert \$500

From Yerington- follow 95A EAST as if you were going to Las Vegas. As you head up the pass, start looking for the big rock with the cave going through it on your right. The guardrail starts and the turnoff to the pits will be right at the end of the guardrail. Trailers turn wide and stay a bit to the left side of your turn when pulling in. The pits will be about 2 miles in – take it slow.
